

Pro Late Model Tire Selection Bulletin

May 26, 2022

To clarify on how tire selection will be conducted for the Show Me The Money Series event on May 28th the following procedures will be used.

Tires will be stacked in groups of 8 with 4-86.5", 2-85.5" and 2-85.25' tires. The stacks will all have a number. At 3:30 on Friday we will have the qualifying/tire draw. The number you draw for qualifying will be the tire stack you get. If you are entered in the event but not yet at the speedway a track official will draw for you.

Once you have your tires you can measure them and decide which will be your race set and which will be your practice set. Tires cannot be swapped among teams and there will be extremely limited availability to swap prior to mounting. Each set must consist of 2 86" tires and 2 85" tires. We will then mount your practice tires only. We are doing this to make sure all teams can have the practice tires mounted for open practice. We will mount the race tires later Friday evening or Saturday morning. Please bring your wheels to impound and leave with your tires.

Thank you for working with us during this time as the tire shortage is difficult on all of us. With your cooperation this procedure has been proven to be the fairest way to do tire selection with limited tires. If you have any questions or need more information, please feel free to reach out to Stan Narrison or Nicholas Rogers
